Graduates thrive in a digital world.

Give them an internship programme to match.

No one knows the digital world quite like the talent just entering the workforce. As all aspects of talent acquisition move to digital and virtual options, engaging and retaining early careers talent must adapt as well—and they are expecting it to move quickly.

Introducing the Virtual Internship Platform (VIP)

Designed by our Early Careers team and powered by Meet & Engage's proven and intuitive technology, VIP provides a streamlined candidate journey and a cohesive framework for creating a meaningful internship programme...that just happens to be virtual.

Virtual internships that minimise the virtual and maximize the internship.

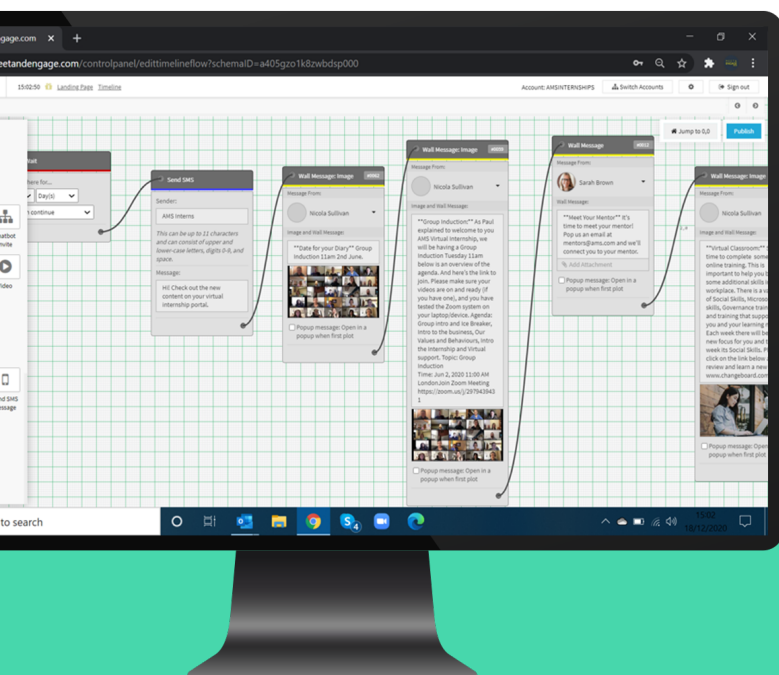

Features for your interns:

- **Easy access and simple to use** - accessible on any device with a familiar social-style interface.
- **Personalised experience** - access to personalised dashboard to help them monitor their activity and progress.
- **Reminders and alerts** - SMS and/or email alerts when new content is ready to view.
- **Connection with other interns** - chats, meetings, and an intern lounge.
- **Support and engagement** - live chat and optional chatbot support, video and social integrations.

Features for you:

- **Intuitive workflow design** - drag and drop customisation of the candidate journey, including the length of internship.
- **Flexible content** - unlimited content options include video, slides, documents, wall posts, articles, group and 1-2-1 sessions, and your preferred e-learning modules.
- **Cohesive brand and messaging** - fully brand the programme as yours.
- **Integration of content and systems** - use your bespoke content, eLearning courses, and connect your other existing technology such as your core HRIS, ATS, video platforms, and LMS.
- **Real-time engagement and experience monitoring** - recruiter/hiring manager alerts and a detailed analytics dashboard.
- **Tools for the future** - keep future talent warm as they return to their studies after the internship ends.
